Additionally, many individual SHHS teachers also make themselves occasionally available to students for after school help if requested or hold study groups in their subject area. If more intensive tutoring is needed, the guidance office can provide you with a list of professional teachers who charge for their services. Some are Sacred Heart faculty members and some are not. The average rate of private professional tutoring ranges from \$25-\$40 an hour.

Peer tutoring is provided by NHS Members or other students who have shown superior ability in a subject area. These tutoring sessions are free. Students in need of tutoring must be on time for these sessions and not be a distraction to the learning process or they will be asked to leave and not allowed to use the tutoring services in the future. Students must provide their own transportation after school and rides need to be on time, as students cannot be left unsupervised. If a ride cannot be secured until later, students will be expected to walk to the Public Library and wait there until they can be picked up. Students that are being tutored and their parents are asked to print all information and sign the bottom of this page, which reflects an agreement to these terms of participation in the peer-tutoring program. Questions can be directed to Mrs. Hartman (ahartman@shhslions.com).
